An activity report is also required if no activity has occurred during the month. It is permissible to submit summary activity reports; listing every passenger or landing is not necessary. Attached is a remittance worksheet you can use to assist you in submitting your monthly written statement.

If another company is responsible for remitting your fees, a contract and information must be attached showing the responsible party's name, address, tax identification number, contact person and phone number.

AUDITS

Yearly audits are conducted to make sure all User Fees are paid as required by Federal Regulation. If during this audit it is determined that a company has not paid as required there will be interest and penalty added to the amounts owing going back to when they were first due.

EXEMPTIONS

Exemptions can be found in the Federal Regulations. There are different exemptions that apply to each user fee type; an exemption from one type does not automatically signify an exemption from the other type. To be exempt from both passenger and aircraft clearance fees, a carrier must satisfy separate passenger and aircraft clearance exemptions. There also may be instances where there are exemptions that happen on some flights or for some passengers and not others.
